1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sandy Katz on March 25, 2004.

The application has been amended as follows:

In claim 3, on the fourth to the last line, please replace  $\beta$  (first occurrence) with  $\alpha$ .  
On the third to the last line, please replace  $\beta$  with  $\alpha$ .

This amendment corrects an obvious oversight in applicants' claims. Note for instance previously pending claim 3, which used  $\alpha$  and not  $\beta$  in this instances.

2. The following is an examiner's statement of reasons for allowance: For reasons of record, the instant claims are neither taught nor suggested by the prior art. The prior art fails to teach or suggest a composition having both  $\beta$  and  $\alpha$  substituents as found in claims 3 and 6. The prior art also fails to teach or suggest the silanol content in claim 10. There is no teaching or suggestion of a polymer as found in claim 21, having both the acetoxy substituents and the silanol requirement. Finally there is no teaching or suggestion of a siloxane polymer meeting the general formula in claim 26 in solution with diglyme as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.
